

Diving Boat Project RV1415 (Flamingo Class).

Standart displacement (tons):32,5
 Length:21,2
 Beam:3,93
 Speed (knots):12
 Range: 800 nmi (9 knots),
 200 nmi (11 knots)
 Autonomy (days):5

Project RV1415 boats (diving variant of standart Project 1415 boat) were a large series of cutters that were built for the Soviet navy starting in 1976 and are in use up to this day on the rivers and harbors for Russia. Diving boats of this project served on all fleets of the USSR and later - the Russian Federation. In total, more than 70 boats of this type were built.
